Mobix Engetec SA (0430.013.470) is currently not part of this merger and will continue to operate under its existing VAT number.

In concrete terms: From 01/7/2023, we are talking about the following divisions within the MOBIX Group:

Over the years, the various companies of the Mobix cluster have worked together in a smooth manner. This merger will strengthen this in a simplified structure. This will also help the support services to further structure and expand processes.

This merger will thus provide a stronger market position within our sectors by allowing us to act as a steady but highly flexible company in an ever-evolving market.

Before the merger goes into effect, there will be another detailed communication that will explain how we will process ongoing matters towards 01/07 (Open orders, invoices, ...).

Please inform all concerned internal departments within your organization of these changes. Should you already have additional questions, please call your contact person within Mobix or contact us on the general phone number +32 15 21 54 00.
